## LUCAS DESIGN ASSOCIATES

After cultivating a decade's worth of collaboration in interior design in New York City, siblings David, Suzie and Rachel Lucas decided to bring their talents west and form a true family business. Combining their complementary skills and talents, the trio launched their namesake firm, Lucas Design Associates, in Seattle in 2012, and they haven't looked back since. "Today, we are lucky to hand-select projects that we are passionate about and that offer opportunities to be extremely creative and fulfilled," David and Suzie reveal. "Rather than having one point of view, we constantly challenge one another to find a balance of ideas and to ensure that the most successful ideas come to fruition. Constant collaboration helps us avoid being hindered by a single vision for any given project." The siblings' individualized and artisanal approach to design has helped their firm garner a reputation for distinction and quality among discerning homeowners. "Beyond the influences of sculpture, art and architecture as a foundation, we aim to navigate our clients' worlds in order to achieve a functional finished product," David says. "We try not to be influenced by trends—we stick with design that feels timeless." With each project, client satisfaction is the ultimate goal. "We strive to create an environment where people can relax and enjoy their space," Suzie explains. "Most of our clients have very demanding lives. This is our opportunity to create a welcoming space where they can unwind and relax with their families."

*“We create modern, comfortable spaces that integrate beautifully into their surroundings and enrich the lives of those who inhabit them.”*

### Ask the Expert

**What do you regard as the greatest success in your career to date?**

The number of return clients we've had is tremendously rewarding. We frequently find past clients hiring us for second projects because they are eager to work with us again. That speaks volumes about the strength of our process and client relationships.

**How do you define luxury?**

True luxury can be found in handcrafted items customized for the individual. Bespoke pieces achieve a greater level of detail and quality that fit the specific needs of our clients and stand the test of time.

**What would be your dream creative project?**

We'd like to redesign the White House interior for our first elected female President, starting first by replacing those gold drapes.

**1.** This bold and contemporary living space is perfect for entertaining. **2.** Surrounded by the dramatic New Zealand landscape, this property embodies the true value of luxury and privacy. **3.** This design showcases a minimalist art collection using a material palette that is textural but quiet. **4.** This modern space in La Jolla connects the indoor environment to its breathtaking ocean view.
