Lucas

Job Title: Interior Designer
Company: Lucas Design
Location: Seattle, WA

Interior Designer

Lucas Design is a Seattle-based interior design firm specializing in high-end residential design projects. We are seeking an Interior Designer with a strong background in interior architecture and design to join our team. The ideal candidate is creative, detail-oriented, technically skilled, and comfortable taking ownership of projects in a fast-paced studio environment.

Duties & Responsibilities

- Manage and contribute to projects from concept development and design collaboration through sourcing, documentation, and installation.
- Work closely with lead designers to translate design concepts and sketches into fully developed design presentations and drawing packages.
- Create and maintain detailed 2D AutoCAD drawings for interior architecture projects, including plans, elevations, sections, and architectural details.
- Develop sophisticated 3D models and renderings of interior spaces, architectural elements, custom furniture, and furnishings using SketchUp Pro.
- Prepare and maintain project documentation, including material, fixture, finish, and door schedules.
- Maintain and update drawings, 3D models, and project documentation throughout design development, construction, and installation.
- Research and specify materials, finishes, fixtures, furnishings, and textiles that align with the firm's design aesthetic and project objectives.
- Participate in furniture and custom design development, material selections, and sourcing.
- Coordinate with architects, contractors, consultants, and vendors to communicate design intent, resolve detailing questions, and address construction-related issues.
- Collaborate with project teams to ensure design details are accurately interpreted and executed.
- Prepare compelling graphic presentations and client-facing materials that clearly communicate design concepts and direction.
- Participate in client meetings, presentations, and project coordination.
- Manage multiple project responsibilities and deadlines while maintaining a high level of accuracy and attention to detail.

Lucas

Education & Experience

- Required: Bachelor's or master's degree in interior design, Interior Architecture, or a related field.
- Required: 2–3+ years of professional experience in interior design or architecture.
- Required: Advanced proficiency in SketchUp Pro, AutoCAD, Adobe Creative Suite (Illustrator, Photoshop, and/or InDesign), and Excel.
- Required: Strong 3D modeling and rendering skills, with the ability to produce polished, client-ready visualizations.
- Preferred: Experience with Enscape or other rendering software.
- Preferred: Experience with high-end residential interior design and construction documentation.

Knowledge & Skills

- Strong understanding of contemporary architecture, modern design, interior detailing, and materiality.
- Excellent design sensibility and the ability to translate creative concepts into thoughtful, well-resolved interiors.
- Strong technical drawing, modeling, and rendering capabilities.
- Strong graphic design skills and the ability to create polished, visually compelling presentations.
- Excellent written, verbal, and graphic communication skills, with the ability to collaborate effectively with project teams, clients, vendors, and consultants.
- Ability to independently manage projects, prioritize competing responsibilities, and meet deadlines in a fast-paced studio environment.
- Strong organizational skills, attention to detail, and a proactive approach to problem-solving.
- Ability to exercise sound judgment, take initiative, and anticipate project needs.
- Collaborative mindset and willingness to contribute to the overall success and creative direction of the studio.

Compensation & Benefits

- Full-time, in office position.
- Competitive salary commensurate with experience.
- Paid vacation and holidays.
- Health, dental, and disability insurance.
- Simple IRA retirement plan.
