Lucas

Job Title: Junior Interior Designer
Company: Lucas Design
Location: Seattle, WA

Junior Interior Designer

Lucas Design is a Seattle-based interior design firm specializing in high-end residential design projects. We are seeking a Junior Interior Designer with a strong interest in interior architecture and design to join our team. This is an opportunity for an emerging designer to contribute to thoughtful, high-end residential projects while developing their technical, creative, and project coordination skills alongside an experienced design team.

Duties & Responsibilities

- Support lead designers and the broader design team in developing and executing projects that meet client needs, design objectives, and project requirements.
- Assist in translating design concepts and sketches into design presentations, drawings, and project documentation.
- Create and modify 2D drawings, including plans, elevations, sections, and interior architectural details, under the direction of senior team members.
- Develop and maintain 3D models of interior spaces, architectural elements, and furnishings to support design development.
- Produce high-quality renderings and visualizations to communicate design intent, materials, finishes, lighting, and furnishings.
- Create graphic presentations, including design concepts, client presentations, design review materials, and other visual collateral.
- Research materials, finishes, furnishings, fixtures, and equipment appropriate to the project scope, budget, and design direction.
- Assist with finish selections, material palettes, furniture layouts, and custom furniture development.
- Research and coordinate project details related to specific scopes of work, consultants, manufacturers, and vendors.
- Coordinate with team members and consultants to integrate interior design elements with architectural and building systems.
- Assist in preparing and maintaining construction documents, specifications, and project schedules.
- Maintain and update drawings, 3D models, and project files throughout design development and construction.
- Participate in client meetings, consultant coordination meetings, and presentations alongside senior staff.

- Organize assigned tasks, manage deadlines, and communicate progress, questions, and potential challenges to the project team.
- Review and refine work for accuracy, completeness, graphic quality, and consistency before submitting it for review.
- Assist with maintaining the studio's materials and product library.
- Meet with product representatives and vendors to learn about new products, materials, finishes, and industry developments.

Education & Experience

- Required: Bachelor's or master's degree in interior design, Interior Architecture, or a related field.
- Preferred: 0–2 years of professional experience in an interior design or architecture studio. Recent graduates are encouraged to apply.
- Required: Proficiency in AutoCAD and Adobe Creative Suite.
- Required: Demonstrated ability to develop 3D models and produce design renderings or visualizations.
- Preferred: Experience with SketchUp Pro and Enscape or other rendering software.
- Preferred: Familiarity with construction documentation, material specifications, and interior finish selections.

Knowledge & Skills

- Strong design sensibility and an interest in contemporary architecture, interiors, materials, finishes, and furnishings.
- Proficiency in 3D modeling and rendering, with the ability to translate design concepts into clear, compelling visual presentations.
- Ability to communicate design intent through drawings, models, renderings, diagrams, and presentations.
- Strong graphic communication skills and an eye for composition, detail, and visual storytelling.
- Clear verbal and written communication skills, with the ability to collaborate effectively with colleagues, clients, consultants, and vendors.
- Strong organizational skills, attention to detail, and the ability to manage multiple assignments and deadlines.
- Ability to identify the appropriate tools and workflows for different design and documentation tasks.
- Developing critical-thinking and problem-solving skills, including the ability to evaluate design options, identify potential challenges, and propose alternative solutions with guidance.

Lucas

- Willingness to receive feedback, incorporate direction, and take ownership of the quality and timely completion of assigned work.
- Curiosity, initiative, and a collaborative approach to learning and professional development.

Compensation & Benefits

- Full-time, in office position.
- Competitive salary commensurate with experience.
- Paid vacation and holidays.
- Health, dental, and disability insurance.
- Simple IRA retirement plan.

To Apply

Please submit your resume, portfolio, and a single PDF containing 10 images that reflect your personal aesthetic to info@lucasinterior.com. Include "Junior Designer Position" in the email subject line.
